- Design and development of data migration solutions from legacy systems to a new IT stack using Python.
- Data science (visualization) and machine learning (prediction) tasks

Senior IT Developer/Student Assistant

Nordea

📅 September 2017 – February 2019

📍 Copenhagen, Denmark

- Application development and maintenance on mainframes

IT Analyst

Tata Consultancy Services

📅 February 2010 – August 2017

📍 Kolkata, India

- Application development and maintenance on mainframes

TECHNICAL SKILLS

Programming languages : Java, Python, COBOL, JCL, SQL, C++

Databases : Elasticsearch, DB2, Oracle, Redis

Tools : IntelliJ Idea, Visual studio, Spyder, Jupyter Notebook, SoapUI, Postman

Other competencies : Pandas, NumPy, Data Science, Machine learning, Git, Github actions, Docker, Kubernetes, Spring boot, Microsoft Azure, Terraform

LIFE PHILOSOPHY

"Education with conscience can eradicate discrimination"

AWARDS AND CERTIFICATIONS

Runner up in programming multi agents

Artificial Intelligence and multi agent systems

📅 May 2020

📍 DTU, Denmark

3rd prize in programming competition

Algorithms and data structures 2

📅 Nov 2019

📍 DTU, Denmark

Certificate of participation in New Technologies

New World Track of GEM Trailblazer Summer Programme : Data Science

📅 July 2019

📍 NTU, Singapore
